We shall be fortunate if we escape more serious consequences from this betrayal or trust than would have come with the riot it has apparently evaded. Nothing is settled by it. The Orangemen are of course made bitter and sullenly resentful. Their enemies are rendered insufferable with arrogant triumph. They feel them pended some millions of dollars, called out

The Surrender to the Mob

From the Tribune of Tuesday.

The General Order of the Chief of Police, published in the *Tribune* this morning, is evidently, written by a higher authority, and only aigned by Mr. Kelso. The mob and its friends have ordered our worthy Mayor to put down the parade of the Orangemen, and he has consented in this roundabout way. He furnishes the rhetoric, and the Chief of Police has probably little to do but to sign his name. Mr. Hall is not a gentleman who indul ges much in remorse, and may escape it for his share in this day's miserable business. But Mr. Kelso has done so many praiseworthy things in his administration lice, published in the Tribune this morn praiseworthy things in his administration that we are sure he will deeply regret having agreed to this surrender to an anticipated riot. The greatest city of the Republic is on its knees to a few thoisand disorderly forwards. eigners. The lesson of 1863 has evidently been lost on them, and they have now gained a deplorable victory infinitely, worse in its effects on the public teach and security than a riot would have been. Sconer or later the riot would have been

quelled, and the authority of the law es-tablished, in spite of the oninous fact that our Police, our Mayor, and our Governor have more respect for the mob than they have have the control of the contr have for the law. But as it is, by a little CURRENT NOTES.

These people and their enemies alike pretend to be Americans; yet their annual wrangle and squab ble proves they have no adequate concep-tion of the privileges and duties of citi-zenship. What does it matter to citizens of the United States which side whipped in a day of civil war, two centuries ago, on the banks of an Irish river? The

has an exceedingly bitter article on Senator Simon Cameron's letter declining the honor of being urged as a candidate for the Vice Presidency. It intimates very distinctly its opinion that Cameron himself was at the bottom of the experiment.

—Prof. Coe, who made a balloon ascension from Ogdensburg, passed through several snow-aquals, and at one time had two inches of snow in the basket. He and the banks of an Irish river? The whole quarrel is pittful and ignoble. But that does not affect the question of the duty of the city authorities to preserve peace on the day of the parade. The corner period of the account of the control of the country and ill-advised as it is, is not an exceptional occurrence. It is as much entitled to protection as the recent German parade, the French Fair, and is much more clearly a legal manifestation than the various two inches of snow in the basket.
